## At the end of a hot day...

Healthy, natural sleep is a present of nature and vital for the regeneration of our body and soul. With the right choice of duvet and the proper sleeping rituals you can help to make the night a pleasant transition into the new day.

Since 1920 top quality bedding is produced by Mühldorfer at Haidmühle in Germany.

As the leading manufacturer for finest bedding and top market leader we take innovative steps both in production and service. Experience the luxury of sleeping in down duvets and pillows by Mühldorfer. Explore your dream-bed and enjoy every night.

Mühldorfer recommends three points for regenerative sleep:

1. Ergonomic: a supportive and well-balanced pillow.
  2. Climate: optimal body temperature (36 °C). Light and ventilated duvets guarantee an optimal compensation of temperature. Never too hot, never too cold.
  3. Hydrotransfer: the body loses around half up to two litres of water during a night. The special hydrotransport technology guarantees a faster hydrotransport for a healthy and dry climate of sleep.
- In this way every customer of Mühldorfer will have a sane, relaxing sleep and sweet dreams every single night.

## EXCELLENT QUALITY

The quality of sleep depends very much on the optimal choice of duvets and pillows. For generations, Mühldorfer with its headquarters in the Bavarian mountain village of Haidmühle in the Southeast of Germany aims to produce duvets and pillows for a healthy and natural sleep. Highly professional experts ensure that only materials of excellent quality are used for the production of Mühldorfer duvets and pillows. The clear springwater from the depths of the Bavarian Forest is the ideal basis for the unique and pure downs of Mühldorfer duvets and pillows.
